Ref: Legaci Academy of Learning

Dear Sir/Madam

I have used Legaci Academy of Learning (LAOL) for my own entrepreneurship journey, for business mentorship and staff development-training and coaching for staff.

What always stand out with LAOL's interventions and approach is their practicality and realness. This is attributed to the practical experience the enterprise has in entrepreneurship.

My company coaching and mentorship was tailor made to suite the need for my entrepreneurship journey, which made my experience unique and beneficial.

LAOL is one of the few companies in the small business development, that I can truly recommend.

Yours Sincerely

Ncedziwe Faith Mabuza
